EXPERIENCE

RouxtAccess, Remote — *Front End Developer*

AUG 2023 - PRESENT

Collaborated with a cross-functional team to convert Figma design concepts into a production-ready React application with TypeScript. Leveraged Material UI components and styled-components to create a visually appealing, user-friendly, and consistent user interface. Contributed to the development of a design system, providing reusable components and guidelines for future development.

Calico Creatives, Remote — *Freelance Front End Developer*

APR 2022 - AUG 2023

Translated Adobe XD design mockups into a fully functional website, paying keen attention to detail and pixel-perfect design implementation. Optimized the website for various devices, ensuring responsive design and cross-browser compatibility.
Successfully set up Firebase hosting and domain linkage.

CodeSwop, Remote — *Intern Developer*

FEB 2023 - MAY 2023

At CodeSwop I gained hands-on experience with the company's technology stack and tools, including Tailwind CSS, ReactJS, NextJS, Remix, TypeScript, React Storybook, Radix UI, Formik, ZOD, CVA, Git and Figma.

Webiroo, Remote — *Freelance Data Entry Administrator*

FEB 2023 - APR 2023

Extracted and migrated product data from the old website to the new WordPress backend, ensuring data accuracy and consistency. Conducted regular HTML/CSS audits to maintain proper display, identifying and rectifying any formatting issues for a seamless user experience.

Verified Services, Remote — *Freelance Front End Developer*

DEC 2022 - MAY 2023

Enhanced the user experience by making significant improvements to an existing WordPress theme using HTML, CSS, JavaScript, and PHP.

SKILLS

CSS

JavaScript & TypeScript

React

Tailwind CSS
